#### *Purpose and Summary*

Proposed Chapter 16 provides the methodology for how fees for camping, the use of rental facilities, vessel storage, and other special privileges are determined in state park and recreation areas. The overall intent of the chapter is to increase revenue for the state’s conservation fund, which is required by law to support Iowa’s state parks system, among other public lands and waters, but to also maximize occupancy and usage of the Iowa state parks and recreation areas.

The Department has statutory authority to set fees to be reasonably competitive with other parks and recreation areas in close proximity and to increase, reduce, or waive fees in response to promotional events or efforts. The chapter will provide clarity to staff and customers on reservation changes, what fee is charged when there is a recent fee change, and to expect alternative fees when political subdivisions are managing the state-owned areas.

This chapter has been reviewed and edited consistent with Executive Order 10 (January 10, 2023).

#### *Analysis of Impact*

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

Members of the public using facilities in state park and recreation areas, including for camping, rental facilities, vessel storage, and other special privileges, will bear the costs.

- Classes of persons that will benefit from the proposed rulemaking:

Members of the public using facilities in state parks and recreation areas, including for camping, rental facilities, vessel storage, and other special privileges, will benefit.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

The indirect cost to the public under Chapter 16 is the specific fees for camping, the use of rental facilities, vessel storage, and other special privileges at state parks and recreation areas. The authority to set fees at a reasonably competitive basis is in statute, but the actual amount of each fee is subject to the methodology in

Chapter 16. Members of the public may see fee increases at parks and recreation areas under this methodology.

- Qualitative description of impact:

The rules provide an objective methodology to maximize occupancy and usage of Iowa state parks and recreation areas.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Department costs include staff involvement in determining and justifying the fees, and updating the website with any fee adjustments.

- Anticipated effect on state revenues:

These rules increase funding to the state conservation fund by allowing flexibility to increase occupancy and usage of park and recreation area facilities.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The benefits of increasing occupancy and usage of state park and recreation facilities outweigh the cost to the public.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

There are no less costly or less intrusive methods associated with this proposed chapter. Under Iowa Code section 455A.14, the Department must adopt a methodology to set fees to be reasonably competitive.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:  
None. These rules are required by statute.
- Reasons why alternative methods were rejected in favor of the proposed rulemaking:  
Not applicable. These rules are required by statute.

#### *Small Business Impact*

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

This proposed rulemaking does not have an impact on small business.
