#### Purpose and Summary

Proposed Chapter 15 sets forth the rules on collecting debts owed to the state from persons who have licenses with the Department. This chapter is procedural in nature and required by law. It describes how the Department will pass along the Iowa Department of Revenue's notice of an outstanding state liability obligation and associated certificate of noncompliance and how the certificate can be challenged.

The Department has reviewed Chapter 15 consistent with Executive Order 10 (January 10, 2023) and removed redundant statutory language and other outdated provisions.

## Analysis of Impact

- 1. Persons affected by the proposed rulemaking:
- Classes of persons that will bear the costs of the proposed rulemaking:

Licensees with an outstanding state debt will bear the costs.

• Classes of persons that will benefit from the proposed rulemaking:

Taxpayers, who will benefit from the state collecting all owed revenues.

- 2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:
  - Quantitative description of impact:

Impacted persons will bear the costs of engaging with the Department of Revenue, and possibly challenging the action in court; however, these costs are the consequence of underlying state law, not the rulemaking.

• Qualitative description of impact:

Impacted persons will bear the costs of engaging with the Department of Revenue, and possibly challenging the action in court; however, these costs are the consequence of underlying state law, not the rulemaking.

- 3. Costs to the State:
- Implementation and enforcement costs borne by the agency or any other agency:

Nominal. Existing staff prepare letters to licensees after receiving a notice from the Department of Revenue; staff do this work along with other assigned duties. The Department is otherwise not involved in this process.

• Anticipated effect on state revenues:

Licensees who receive these notices tend to pay back the debt, which is beneficial to the state. However, those dollars do not come to the Department.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Not applicable. These rules are required by state law.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

Not applicable. These rules are required by state law.

- 6. Alternative methods considered by the agency:
- Description of any alternative methods that were seriously considered by the agency: Not applicable. These rules are required by state law.
- Reasons why alternative methods were rejected in favor of the proposed rulemaking: Not applicable. These rules are required by state law.

## Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
  - Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Not applicable. These rules are procedural in nature and required by state law and, furthermore, only apply to license holders who owe a debt to the state.
