

August 14, 2023

Meghan A. McCollister
Regional Administrator
US EPA, Region 7
11201 Renner Blvd
Lenexa, KS 66219

Dear Administrator McCollister:

The Iowa Department of Natural Resources (DNR) respectfully submits this letter and its enclosures as a revision to Iowa's State Implementation Plan (SIP) to address the second planning period (2019-2028) of the regional haze program. The plan was approved by the state's Environmental Protection Commission on August 9, 2023.

Pursuant to 40 CFR 51.308, this SIP revision includes a long-term strategy that provides for reasonable progress towards natural visibility conditions in impacted downwind mandatory Class I federal areas. Control measures for the long-term strategy incorporate emission limits and compliance schedules specified in three air construction permits issued by the DNR. The air construction permits are provided in Appendix E for adoption into the SIP, with the exceptions of Condition 11 in permit numbers 05-A-031-P6 and 75-A-357-P9 and Condition 6 in permit 03-A-425-P4.

I look forward to EPA's approval and promulgation of the SIP revision. If you have questions regarding this submittal, please contact Matthew Johnson at matthew.johnson@dnr.iowa.gov or (515) 725-9554.

Sincerely,

A handwritten signature in black ink that reads 'Kayla Lyon'. The signature is written in a cursive, flowing style.
