

## Approved Courses for Continuing Education Hours for Iowa Certified UST Professionals

### Documentation

Proof of participation will be required when submitting continuing education hours. A certificate of satisfactory completion issued by the course sponsor or instructor constitutes sufficient documentation of participation. Documentation is preferably submitted to the DNR at the completion of the course but can also be included with a biannual certification renewal application.

### Course Approval

If you would like to take a course not on this list for your continuing education hours, reach out to [ustlicensing@dnr.iowa.gov](mailto:ustlicensing@dnr.iowa.gov) with a course outline and course topic. If approved, the DNR will award 1 continuing education hour for each hour in class.

Hours granted may be limited by the department based on program content. HAZWOPER refresher training and specific manufacturer's training may not be used for continuing education hours. The following topics are considered appropriate for approval:

- UST Systems: installs, removals, leak detection, inspections, monitoring, and UST system maintenance
- UST releases and contamination
- Health & safety

Organization	Course Title <i>Please view link for course dates</i>	Location	Hours Granted
