

# Lead Acid Batteries

---

**Did you know that Lead Acid Batteries are a Household Hazardous Material?**

- Iowa law prohibits disposal of lead acid batteries in a landfill.
  - Iowa law requires a retailer who sells lead acid batteries to accept your old lead acid battery for recycling free of charge when you purchase a new battery.
  - Lead is harmful to the environment and your health.
- 

**RECYCLE your  
Lead Acid Battery HERE**

---

Contact your local Solid Waste Agency or Regional Collection Center to learn more about Household Hazardous Materials or visit
