

Est. 1971

LANDFILL & NORTH IOWA

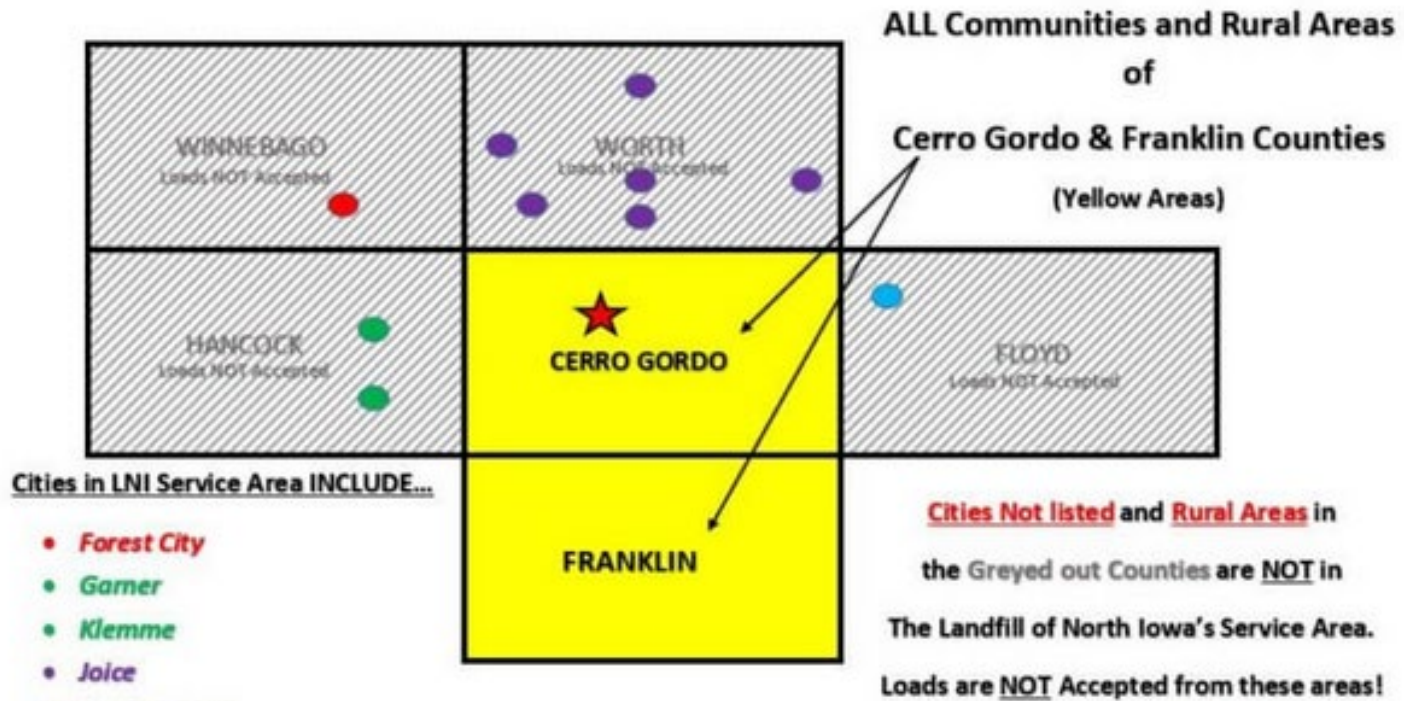

LNI was established in 1971

- **For municipal & residential SOLID WASTE DISPOSAL.**
- **Through the years various other services have been added at LNI.
(We'll go over those shortly.)**
- **We have currently used about ½ of our capacity (160 acres)**
 - **LNI's current life expectancy is about 60-65 more years.**

LANDFILL OF NORTH IOWA SERVICE AREA

300 tons/day

77,000 people in our service area.

LNI is governed by a 30 member board,
comprised of representatives from each community within our service area.

LNI participates in a voluntary DNR program called
Environmental Management System (EMS)

This program promotes continuous improvement
within 6 areas...

Organic Waste

Water Quality

Greenhouse Gas Reduction

Recycling

Household Hazardous Materials

Environmental Education

**Within each of these categories an objective & target is set
with a goal in mind for continuous improvement.**

THANK YOU!

We're more than just a place to take your trash!
