

Iowa DNR/Household Hazardous Materials

Material: Fly and Insect Killer

Potential Hazards: May contain propane, isobutene, baygon, dichlorvos, pyrethrins. Flammable, harmful if swallowed, inhaled or absorbed through skin. May cause eye and skin irritation. If ingested, and aspirated into the lungs it may cause severe injury to the lungs.

Proper Disposal: Use this product up or take it to your local Regional Collection Center, find yours at iowadnr.gov/hhm

Green Alternatives: Remove food/water from open places so insects do not have a food source and physically remove nests you see. Green alternatives are available at your local retailers that are better for your family and the environment.
