The facility noted above is required to submit an annual fee by August 30 unless a multiple year fee payment was received in an earlier year. New facilities seeking General Permit #5 coverage in any month but August shall submit fees with the Notice of Intent for coverage. Failure to submit the required amount by the due date or with the Notice of Intent for Coverage is a violation of Iowa Administrative Code 567-64.16(455B).

The facility has the option of submitting an annual fee or a three, four, or five year fee as detailed below:

- Annual Permit Fee: \$125 (per year)
- Three-year Permit Fee: \$300
- Four-year Permit Fee: \$400
- Five-year Permit Fee: \$500

Coverage provided by the five-year, four-year, three-year permit fees expires no later than the expiration date of the general permit. Maximum coverage is five years, four years, and three years, respectively. In the event a facility is no longer eligible to be covered under General Permit #5, the remainder of the fees previously paid by the facility will be applied toward any individual permit fees.

Complete and return this form together with a check or money order made payable to "Iowa Department of Natural Resources". To pay by credit card, email the completed form to webmaster@dnr.iowa.gov, then call 515-725-8200 to pay the fee.
