Did you know that the Clean Water Act sets limits on water pollutants, provides funding for wastewater infrastructure, and protects wetlands?

Has your facility ever had a wastewater inspection? Do you know what to expect? Do you know the many ways your local publicly owned wastewater treatment wastewater (POTW) could be of assistance to your company? Come join us in our latest P2 in Depth webinar to learn more about the resources and support available from POTW facilities.

Des Moines Metropolitan Wastewater Reclamation Authority (WRA) is the local POTW Control Authority, in central Iowa. They are responsible for enforcing regulations in the Federal Clean Water Act and local ordinances by ensuring industrial and commercial dischargers remain compliant with all applicable environmental laws as it pertains to wastewater discharged to the POTW.

Paul Ebert, Regulatory Compliance Manager at the WRA will be joining us as a featured speaker to discuss the many ways in which companies and their local POTW can work together. He will discuss the following wastewater topics including:

- * History of wastewater treatment
- * Permitting Industrial Users (IU)
- * Inspecting & Regulating Industrial Users
- * Surcharges
- * The Industrial User – Local Wastewater Treatment Plant Relationship
- * The Clean Water Act
- * Non-Significant and Non-Categorical IUs
- * Most common problems
- * Partnerships

This webinar will provide plenty of time for open discussion and a question and answer session, so take advantage of this opportunity to learn and share ideas!

Come join us for this free webinar Wednesday March 26, at 10:00 am, to further your wastewater treatment knowledge as the DMMWRA shares information on these important topics and more! Please register for the webinar by clicking **HERE**: [P2 In Depth: Wastewater Webinar Registration](#).
